Please provide any additional information about or descriptions of the supervised clinical experiences:

Interns in the ARC program complete a minimum of one-half school year of clinical practice, and an additional significant amount of time if necessary. Clinical practice is full-time and evaluated by a field supervisor and supervised by a mentor teacher. The definition of full-time is 4/5 or more of the regular school day and the minimum requirement for supervised is having the mentor teacher in proximity of the candidate during the school day. Clinical practice begins with frequent and intense supervision of candidates by mentors, and diminishes over time, according to the co-teaching model. Before supervision is diminished, the mentor and field supervisor must agree that the candidate is ready to assume more independent responsibility for students.

## **Enrollment and Program Completers**

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

### **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

### **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

### **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

We anticipate enrolling 10 special education teachers.

SECTION II: ANNUAL GOALS

# **Annual Goals: Instruction of Limited English Proficient Students**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

#### (§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

SECTION III: PROGRAM PASS RATES

#### **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

SECTION V: USE OF TECHNOLOGY

### **Use of Technology**

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAG	E INCLUDES:		
>> <u>Use o</u>	f Technology		

### **Use of Technology**

1.	Provide the following information about the use of technology in your teacher preparation program. Please note that choosing '	yes' indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))	

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
  - Yes
- b. use technology effectively to collect data to improve teaching and learning
  - Yes
    - No
- c. use technology effectively to manage data to improve teaching and learning
  - Yes
    - No
- d. use technology effectively to analyze data to improve teaching and learning
  - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

We expect our candidates to use technology throughout the program. They are involved in using a variety of technologies to complete their work for courses. These include search engines, various blogging tools, word processors, spreadsheets, discussion groups, listserves, and a variety of other web 2.0 and computer-based technologies. Our faculty also model the incorporation of various technologies into coursework. As mentioned above, students are regularly engaged in assignments that require them to use technology. They also see technology used on a regular basis. Document projectors, Internet projections, a variety of animations, as well as smartboards, and other technologies are routinely used in classes they take. Since our students take many of their courses while embedded in the internship placement, they have an immediate opportunity to apply the technology they use in completing university coursework as well as what they are taught in their specific technology course.

SECTION VI: TEACHER TRAINING

>> Teacher Training

#### **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

There are several classes that incorporate training on differentiated instruction for students. This includes students with disabilities as well as students who have limited English proficiency. In addition to the integrated focus in the ARC program, all students are required to take EDSP 6644 Educating Exceptional Students, EDU 6132 Learners in Context and EDU 6133 Diversity, Equity and Inclusion to help ensure that our students are well prepared to work with students with disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

There is a separate class that deals specifically with how to work effectively with the rest of the building/district team to meet the needs of students with disabilities through participation on an IEP team.

c. Effectively teach students who are limited English proficient.

The ARC program takes an integrated focus on preparing teachers to teach all students, but in addition, all students are required to take EDSP 6644 Educating Exceptional Students, EDU 6132 Learners in Context and EDU 6133 Diversity, Equity and Inclusion to help ensure that our students are well prepared to work with students with disabilities.

- 2. Does your program prepare special education teachers?
  - Yes

No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Students would choose to earn an endorsement to be certified to be a special education teacher as part of their ARC program. The courses are: EDSE 5179 Fundamentals of Special Education; EDSE 5194 Teaching Strategies: Powerful Academic Strategies for All Students in Inclusive Classrooms; EDSE 5079 Autism & Asperger's Disorders (3); EDSE 5075 Trends in Early Childhood Special Education (3); EDSE 5081 Special Ed. Assessment & IEP (3); EDSE 5127 Severe Disabilities (3); EDSE 5653 Teaching Reading to Exceptional Students (3); Choose ONE of the following courses: EDCT 5384 Using Multi-Tier System of Supports to Improve Literacy and Behavior Outcomes or EDCT 5411 Response to Intervention: Changing How We Do Business (5); Choose ONE of the following courses: EDSE 5939 Understanding Autism Spectrum Disorders (5) or EDSP 5969 Attention Deficit Disorder (3)

#### Education Act.

This course would be covered through the list of courses in the endorsement program

#### c. Effectively teach students who are limited English proficient.

The ARC program takes an integrated focus on preparing teachers to teach all students, but in addition, all students are required to take EDSP 6644 Educating Exceptional Students, EDU 6132 Learners in Context and EDU 6133 Diversity, Equity and Inclusion to help ensure that our students are well prepared to work with students with disabilities.

#### **Contextual Information**

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Content Knowledge: All teacher candidates seeking endorsement are required to have a completed major in their endorsement area or they work with our Certification Office to design an "Approved Plan of Study" comprised of college/university coursework and/or documented professional experience that exceeds the minimum endorsement core content competencies. Required courses are content courses, not "teacher education" courses to ensure our candidates exceed the minimum content knowledge required for the endorsement. The "Approved Plan of Study" must be successfully completed in additional to all other state and university endorsement and certification requirements. As our assessment data indicates, our internal process for ensuring strong content knowledge appears to prepare teacher candidates well for the state assessments. Teacher candidates have two opportunities to pass the state assessment, which is a program completion requirement as well as a practicum pre-requisite. Consequently, 100% of all program completers pass the state assessment in their endorsement area(s). Since its creation in 2002, The Alternate Routes to Certification Program, which leads to a Masters of Arts in Teaching degree, has developed field-base courses which are individualized to assist the candidate in completing the residency competencies as efficiently as possible.
