Classroom B is an on-site meeting space with multiple classrooms and two restroom facilities. It is located behind the gymnasium, just inside the “South Entrance” to the conference center. It is one-half mile north of the Keystone ferry terminal.

There are three classrooms in this building. (See the diagram below.)
- One large carpeted classroom: seating capacity 40
- Two medium sized carpeted classrooms: seating capacity 20

The three rooms have wall-mounted whiteboards and projection screens. A 3-inch strip of cork board lines the perimeter of each room, on the center of the wall. Some chairs are available, and more chairs may be rented with advance arrangements. A digital projector and VCR-monitor unit may be rented for use during your conference.

The building was built in the early 1940's and is heated by an oil-fueled, forced-air furnace. The building is also handicap accessible by a ramp located near Classroom #2.

Classrooms may be rented individually or as a set.
