Master of Science in Nursing (MSN):
The MSN survey was sent out for a 3 year retrospective look at overall program satisfaction and employment settings. The results are from the survey administered in September 2013 and surveyed alums from the graduating classes of 2009 through 2011 (total of 69 alumni). A total of 12 alums responded to the electronic survey (response rate of 18%). Of those who responded to the survey:

- **Program Satisfaction:**
  - Overall strength of the SHS graduate program -- 67% of the respondents rated the program as “excellent” to “good, above average”.
  - 58% stated the SHS graduate program prepared them extremely well or very well prepared for their career.

- **Employment / Job search:**
  - 92% are employed within the field of nursing using their graduate degree or post-masters certificate.
  - 92% stated they were employed in the field of nursing using their graduate degree or post-masters certificate within 6 months of graduation (83% were employed within 3 months of graduation).
