### Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2014-15:	86
Unduplicated number of males enrolled in 2014-15:	6
Unduplicated number of females enrolled in 2014-15:	80

### Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State  
NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

### Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction  
Yes
- use technology effectively to collect data to improve teaching and learning  
Yes
- use technology effectively to manage data to improve teaching and learning  
Yes
- use technology effectively to analyze data to improve teaching and learning  
Yes

and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

We expect our candidates to use technology throughout the program. They are involved in using a variety of technologies to complete their work for courses. These include search engines, various blogging tools, word processors, spreadsheets, discussion groups, listserves, and a variety of other web 2.0 and computer-based technologies.

Our faculty also model the incorporation of various technologies into coursework. As mentioned above, students are regularly engaged in assignments that require them to use technology. They also see technology used on a regular basis. Document projectors, Internet projections, a variety of animations, as well as smartboards, and other technologies are routinely used in classes they take.

Since our students take many of their courses while embedded in the internship placement, they have an immediate opportunity to apply the technology they use in completing university coursework as well as what they are taught in their specific technology course.

## Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- **teach students with disabilities effectively**  
Yes
- **participate as a member of individualized education program teams**  
Yes
- **teach students who are limited English proficient effectively**  
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

While multiple courses required students to be able to differentiate instructional strategies to work with a range of learners, undergraduate and graduate programs include specific courses that overtly address working with students with disabilities and limited English Proficiency. At the undergraduate level, EDU 2300, Diversity & the Classroom covers these topics. In addition, there is a separate class that deals specifically with how to work effectively with the rest of the building/district team to meet the needs of students with disabilities through participation in an IEP team.

In addition to the integrated focus in the Master of Arts in Teaching program, all students are required to take EDSP 6644 Educating Exceptional Students to help ensure that our students are well prepared to work with students with disabilities.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**  
Yes
- **participate as a member of individualized education program teams**  
Yes
- **teach students who are limited English proficient effectively**  
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Students majoring in special education take a total of 18 quarter credits in methods courses related to teaching students with disabilities. In addition, they take 8 quarter credits of foundations courses 3 credit hours in writing IEPs, and between 10 and 18 quarter credits in student teaching.

Master of Arts in Teaching teacher candidates take 27 graduate level quarter credits in Special Education content and methods as part of their certification program. All Special Education coursework is carefully aligned with the 2007 Washington State Endorsement competencies.

## Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Teacher Education consists of graduate and undergraduate programs. The undergraduate program is organized into four quarters, around foundations, methods, skills, and application courses. Graduate teacher education includes a two-year Master of Arts in Teaching (MAT). Teacher preparation programs at Seattle Pacific University require all teacher candidates demonstrate content, pedagogical, and professional knowledge and skills, along with meeting all endorsement competencies required for residency certification according to Washington Administrative Code 181-78A-270. All teacher candidates must demonstrate evidence of having a positive impact on student learning outcomes associated with state learning standards. A positive impact on student learning means showing evidence of student growth through effective planning, instruction, assessment, and reflection. Teacher candidates earning residency certification must demonstrate effective performance in field experience, clinical student teaching, and coursework. Assessment of effective performance in field experience and clinical teaching is done by comparing candidate performance to criteria defined in RCW 28A.405.100. Teacher evaluation criteria shown in RCW 28A.405.100 infer proficiency on professional dispositions, which are necessary for productive interactions with students, colleagues, administrators, and parents or guardians. Teacher candidates earning residency certification

by the School of Education and also those standards informed by professional organizations.
