Emergency drills will be conducted on an annual basis to help evaluate the effectiveness of the University’s emergency plan and to train people on the appropriate emergency response procedures. The buildings affected and the times of the exercises will vary from drill to drill so that the occupants of all campus buildings will have the opportunity to practice for an actual campus emergency. Drills may be announced or unannounced. All drills will be documented, including a description of the exercise, the date, time, and whether it was announced or unannounced. Records will be kept for seven years.

### 2012 Emergency Drills
