

2008 - 2009 BIRTH DATE VERIFICATION

STUDENT NAME: _____ SPU ID: _____

The date of birth reported on your Free Application for Federal Student Aid (FAFSA) does not match the date of birth reported in one of the following places:

- Social Security Administration (SSA) database
- SPU's database

You must resolve this discrepancy before we can process your application by taking the following action:

- Please submit an official copy of your Birth Certificate, Passport, or Driver's License with this form and we will update your FAFSA and / or SPU records as appropriate.
- Check your FAFSA (www.fafsa.ed.gov) to determine if the birth date is correct. If the birth date you reported on your FAFSA is **correct**, but you did not match against the SSA database, it is likely the SSA database contains an incorrect birth date record for you. You will need to contact the SSA at 1-800-772-1213 or www.ssa.gov to resolve this discrepancy. Please be aware the SSA may take 2-3 weeks to update incorrect records.

- The birth date I submitted on my FAFSA is correct.
- The birth date I submitted on my FAFSA is incorrect and I have contacted the SSA.
