

**MASTER OF ARTS IN MANAGEMENT**  
*with a emphasis in*  
**SOCIAL AND SUSTAINABLE MANAGEMENT**

**PROGRAM STRUCTURE**

The curriculum is a tapestry that re-mixes these traditional graduate classes into modules with topics distributed across the program according to the themes of the modules. Issues of social, sustainable and responsible business are interlaced with the topics. All of these topics are explored and interconnected through a series of integrating problems, cases, and projects.

**TRADITIONAL GRADUATE CLASSES DISTRIBUTED ACROSS THE MODULES**

- |                       |   |   |                                 |
|-----------------------|---|---|---------------------------------|
| Macroeconomics        | Operations Management                   | Leadership                                    | Business Ethics                 |
| Financial Accounting  | Information Systems Management          | Managerial Communication                      | Issues in Global Enterprise     |
| Managerial Accounting | Statistics for Business Decision-making | Christian Values, Ethics, and the Marketplace | Management Consulting Practicum |
| Managerial Finance    |   |   |                                 |
| Managerial Marketing  |   |   |                                 |
