Please contact the Media Equipment Coordinator at assp-media@spu.edu with any questions you may have regarding ASSP's sound systems

*Systems **Bronze – Platinum** are designed to be “Show Lights” *on-stage facing the audience* creating a light show for an event. These systems are used for all dances and band/talent related events that would like lighting and light effects in order to create a “live show” effect or to simply add additional varieties of light and color to a stage or performance space.

*Systems **Pearl - Diamond** are designed to be “Stage Lights” *off-stage facing the stage* in order to light a stage. These systems are used for all events that would like a stage or performance space illuminated.

*All lighting instruments are LED fixtures manufactured by Blizzard or Chauvet.
