## Faculty & Staff Dashboard

Welcome to the Faculty & Staff Dashboard!

If you're looking for official Autumn Quarter summary information, visit **SPU Facts**, which provides:

**Academic Profile:** The number of faculty and academic programs, top 10 undergraduate programs, student-to-faculty ratio, etc.

**Enrollment Statistics:** Reports autumn headcounts, diversity, and student profiles; incoming new-student profile by average GPA and SAT scores; retention and six-year graduation rates.

**How to use the dashboard – window to greater detail:**

Choose a topic from below by clicking on a box. This will allow you to gain access to the related report(s). Some subject areas have reports that are updated annually; others are updated quarterly (A, W, Sp).

Because this is a secured site and open to only SPU faculty and staff, you will be asked to log in after you select a box. You log into the secured system by entering your user name and password when prompted — the same information entered when logging onto your campus computer.

**Do you have questions?**

Unable to find what you're looking for?  
Let us know.

[CONTACT US](#)

**Links:** Quick access to other sites of interest.

**Resources:** External sites that receive SPU data. **U-Can = private colleges; College Navigator = all US colleges.**

**Contact Us:** Takes you to a webpage where you enter your name, email and question and IDM will get back to you within 24- 48 hours.

## Administration

## Academic Program Information

## Student Information

## Unique Reports

## Faculty & Staff Dashboard:

Access to the information within the “boxes” is restricted and requires you to follow the following process:

1. Select a box from this section -- for instance under Academic Program information → click on **Degrees Awarded**
2. You will now go to the “Confluence” page where you will enter your credentials – Username (e.g. jward) and password (same as when you log on to your campus PC).
3. You only need to enter your credentials once. Now you have access to all the reports posted to the Faculty & Staff dashboard.
4. Your PC will open onto the “Degrees Awarded by Major & Program”. See next page as an example.

### Information and Data Management - Document Delivery System

#### Degrees Awarded by Program

To get more information or contact IDM, go to the [IDM home page](#).

This data is only available to Faculty and Staff. For definitions of terms, click to the [Metadata Dictionary](#) (excel file).

This data is updated annually.

##### Degrees Awarded

This report counts earned degrees awarded; students are only counted once unless they earned more than one unique degree in the same year (e.g. BA and BS); this report does not count double majors. See "Degrees Awarded-Majors" for a report that includes double majors.

##### Degrees Awarded by Major and Graduate Program

This report counts earned degrees by major, therefore students with double majors will be counted twice. Each Academic year consists of Summer through Spring terms. Totals reflect additional degrees which have been posted since the official fall census date.

##### Degrees Awarded by Minor

This report counts minors when degrees have been awarded; students with more than one minor will be counted once for each minor (more than once).

#### Above the line:

An overview about the reports available under this topic is provided.

#### Left Column:

This is a list of all the reports to which you have access – those available to Faculty & Staff

You may access the reports by:

- Clicking on the title of the report listed on the left
- OR use the back arrow (top left/web page) to return to the F&S dashboard and then select another box/topic.

#### Below the line: Reports are posted.

By mid-fall quarter 2010 the reports on this page will be updated with 2009-10 degree information.
