

Seattle Pacific University Engineering and Computer Science Programs
Program Educational Objectives
Approved for Mechanical Engineering by ECS Advisory Board 1/29/2019
Approved by ECS Advisory Board 2/23/2017

The Engineering and Computer Science Department at Seattle Pacific University prepares its students for a lifetime of success in their respective fields. A few years after graduation, our Engineering and Computer Science alumni will be:

1. Purposefully demonstrating Christian ideals throughout their professional and personal lives.
2. Serving as competent professionals by applying their knowledge of engineering and computer science to solve complex problems appropriate to their professional roles.
3. Acting as servant leaders and mentors to develop appropriate solutions in global, societal, and community contexts.
