

Purpose

SPU2YOU is a web service that will allow SPU students to reserve and use OhmniLabs' robots to virtually attend and participate in class.

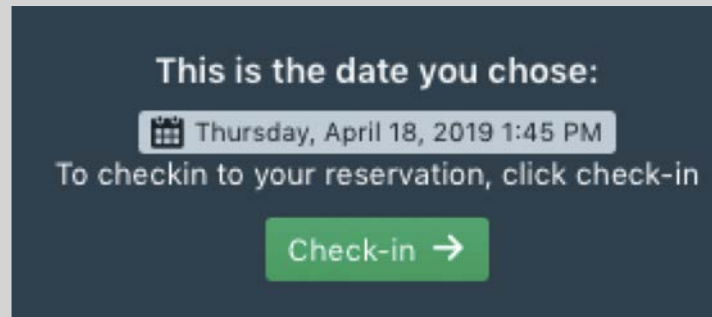

Our goal is to make a traditional classroom experience accessible to all students, since many university students are absent from class due to conflicts that inhibit them from physically & socially being a part of the classroom.

Alex, Hector, Vanessa, Marissa

Sponsors: Dr. Weltz. Dr. Dingler

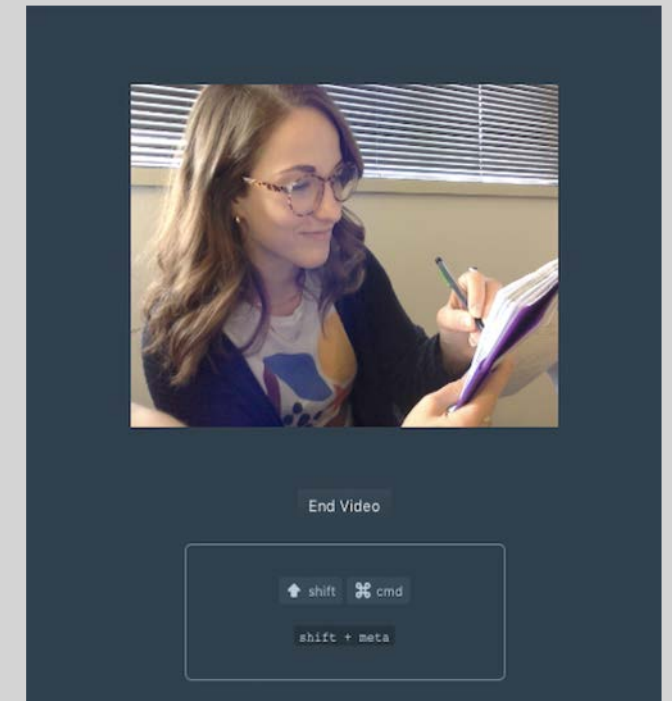

Client: Dr. Wicks

Features

Using SPU2YOU, students are able to determine if the robot is available and charged, make reservations to use the robot. Students may also view upcoming reservations and cancel if necessary.

The robot's functionality includes video, audio, and movement.
