

Advance your career as a Nurse Technician

Opportunities available to current nursing students

Nursing Technician I and II
Per Diem
Variable Shifts
All Campuses
Seattle, WA

Achieve your full potential

Join our collaborative team to learn and grow by working with experienced RNs, while delivering health for good.

In this position you will:

- Work under supervision of an RN to provide care to patients and their families.
- Communicate and document all daily activities and care provided to patient.
- Perform courtesy patient rounds.
- Answer the unit telephone and patient call system.

Qualifications and certifications for these positions include:

NURSE TECHNICIAN I:

- Current enrollment in and satisfactory completion of at least one academic term (quarter or semester) of a nursing program, including a clinical component.

NURSE TECHNICIAN II:

- Current enrollment in and satisfactory completion of one year or less of school prior to graduation/no more than 3 quarters or 2 semesters until graduation.

BOTH ROLES:

- Nursing program education and practice in the score of care for the patient population on the unit of hire (i.e. pediatrics, medical/surgical, etc.).
- Current enrollment in a Washington State Nursing Commission for Education in Nursing (ACEN) or the Collegiate Nursing Education (CCNE).
- Current Nursing Technician registration
- In “good standing” with the nursing program currently enrolled in
